

April 10, 2026

Update to this Report as of Friday, April 10, 2026:

This crime was reported to the Sheriff's office. Case number # 260308490 below.

Update on the missing 2-inch Vacuum Pressure Valve. Our White Oak Springs valve was removed under the direction of a nearby business who mistakenly thought this was their valve and back flow pressure.

Mistakes can happen. A Big thank you to the General Manager and Assistant General Manager of Fresh Water District #61, who helped identify this back flow valve as property of White Oak Springs, with a copy of our last Back Flow test certificate as supporting paperwork. They talked with the nearby business and helped them locate their valve behind their building. District # 61 also helped us negotiate our monetary damages that were incurred due to their mistake and the business has agreed to pay our HOA all monies out of pocket.

This case is CLOSED.
