UNKNOWN Exposed Wires Unattended on White Oak Springs Dr – As reported by a resident driving by on White Oak Springs Dr who immediately took pictures and sent to the HOA.

There is not barricade surrounding these exposed wires and they remained wide-open and accessible to the public for several days before being covered up. There is no-way for the normal public to know if these are live wires or not, plus they are exposed first directly in front of our playground. These need to be reported as soon as possible, and if unsure of who to contact if there are no obvious workers nearby, then please contact the non-emergency Sheriff's number so they can minimally investigate and advise the caller on who needs to be contacted.

Although there is awareness that "Ezee Fiber" was installing new "internet" cabling and spools in the area, they still did not mark off this work area and left wiring open and exposed for days. These are unsafe working areas.

After several days of being exposed and ultimately reported, the cabling contractor did cover the exposed cabling, so no additional action was taken.

Please immediately contact the following numbers to report this:

Non-Emergency Sheriff's at 713-221-6000, option #1 (new option)
