Water Mainline Breaks Hydrant Theft on Gentry Rd & White Oak Trace Dr in White Oak Springs – As reported by a resident driving by on Gentry Rd who immediately took pictures and sent to the HOA. The HOA board immediately contacted the water company to take immediate action and so that necessary repairs could be done as soon as possible and to avoid loss of water and other additional expenses.

These water-mainline breaks were caused by the new “internet” cabling contracting services (Ezee Fiber) thru negligence and unsafe, uncaring procedures when installing these fiber spools. Over the next week, this was a repeated crime on Gentry and White Oak Trace Dr.

Water District # 61, who is MUD # 248’s operator completed the necessary repairs as soon as possible, but understand that this is MUD248, our Municipal Utility District that we pay MUD taxes on, water-mainline breaks and repairs like these effects our costs in MUD taxes.

If you see any mainline breaks, these can be reported directly to the Water Company (Water District #61) at 281-469-9405 as they are the MUD248 Operator.

It is important that we take care of these types of incidents as soon as they are seen, otherwise it effects possible increases in our MUD248 annual taxes.

Please immediately contact the following numbers to report this:

(MUD248 Operator) Water District # 61 281-469-9405

Non-Emergency Sheriff's at 713-221-6000, option #1 (new option)
